PROFILE

UX/UI designer and front-end developer with a background in graphic design. I research users, design clear, accessible interfaces and build them as working web apps with React, Next.js and Supabase. Based in Chile, working remotely and adapting my schedule to European teams.

EXPERIENCE

2026 — **UX/UI Designer & Front-end Developer · Freelance**
Remote · web projects for real clients

- Designed and built two wedding invitation web apps for real couples: RSVP flow, song and allergy choices, and a private dashboard.
- Built with Next.js, TypeScript and Supabase / MySQL: private guest list, secure sign-in, deployed on Vercel.
- Designed and built Fresco, a working sales and finance prototype proposed to a small food business.

2024 — **Graphic Designer · Political Communication**
2024 Regional Elections (Chile)

- Designed campaign materials for regional candidates, including a campaign for Regional Governor of Coquimbo.
- Social media content, posters, informational graphics and street materials, in consistent visual systems for print and digital.

2023 – 2024 — **Team Player**
Decathlon · Retail · Sep 2023 – Mar 2024

- Customer service, cash register and internal processes; inventory, loss prevention and KPI tracking.
